Felix Sargent

Oakland, CA

Experience

Director of Engineering @ [MediaMath](#)

November 2016 - In Progress

- Managed three teams of engineers supporting our Campaign Management product
- Lead teams with a philosophy of Servant Leadership, "little a" agile, and fostering a culture of inclusiveness and discourse
- Oversaw refurbishment of legacy Perl application
- Orchestrated the migration of legacy Perl monolith to Kubernetes, revamping our testing and deployment environments, and moving to CI/CD
- Coordinated teams to extract Authentication, Authorization and User services into microservice APIs from a legacy Perl monolith. Project allowed for the rollout of OAuth2, Multi-Factor Authentication, dramatically increasing security and improving UX

VP of Product @ [SeamlessDocs](#)

November 2015 - November 2016

- Led the product team with a philosophy of servant leadership to encourage discussion, healthy debate, and clear communication
- Created product strategy and worked with CEO to set the roadmap to replace unreliable legacy systems
- Re-established trust between engineering and sales teams by creating consistent outcomes and stabilizing the platform, bringing bugs identified per week down by 90%
- Developed process for the account management team to triage and prioritize customer issues bringing median resolution time down by 80%, and increasing customer NPS scores by 60%
- Conducted extensive user research with government officials to refine product features and specifications
- Re-negotiated contractual obligations with customers to reduce commitments, and align engineering roadmap with company direction

Sr. Product Manager: [Vault](#) @ [Bloomberg](#)

October 2014 - November 2015

- Product owner for Bloomberg Vault Surveillance, the communications monitoring and auditing tool for the Bloomberg Terminal (MCMP, BVTP)
- Implemented technology and policies to capture communications to prevent Market Abuse, Insider Trading, Harassment, and Data Loss
- Coordinated a team working on the latest and greatest technology stack including Scala, Play, Accumulo, & Akka running on a Mesos infrastructure
- Worked with Compliance and Security Officers to ensure the data integrity of our clients, and the Bloomberg Terminal

Product Manager: Repose, Autoscale @ [Rackspace](#)

August 2011 - October 2014

- Defined the product strategy, roadmap, user stories, KPIs, and priorities
- Redefined product strategy to focus on external customers
- Enabled agile development, continuous integration, deployment, and testing
- Built the office [Kegerator](#)
